

**JUST  
'CLICK' ON  
AND DRIVE AWAY**

Children, whether able bodied or disabled, need to be 'mobile' for their mental and social development. Especially children and young people want to be active and experience their environment independently.

# **DRIVE OFF – WHEREVER YOU WANT...**

**... with the new  
KIDS SWISS-TRAC.**

There has been a SWISS-TRAC for adults for more than 10 years. Now, using our years of experience and knowledge, we have created a smaller version for children and young people.

The front wheels of the wheelchair are raised with KIDS SWISS-TRAC so that it can move easily on uneven terrain. Long distances and steep gradients can be mastered without physical effort. The KIDS SWISS-TRAC is strong and quiet, will not tilt and is easy to use. As a product of Switzerland it meets the highest safety standards.

- suitable for children 7 years and over
- compact, durable and simple
- no need to transfer, just attach and drive away
- cannot tilt, so it is ideal for uneven ground.
- high performance and safety
- easy to transport
