

YOORALLA BROOKLYN

planning for the future

For 33 years the Independent Living Centre, ComTEC, the Equipment Libraries and the Yooralla Library have provided people in Victoria information about disability and equipment (Assistive Technology).

In 2010/11 we undertook a review of our services to help us plan for the future.

We are planning changes about how and where we deliver services.

Over the next 12 months we will be planning our move from Brooklyn. We are considering having a number of equipment displays within metro and regional areas. This is because Brooklyn is not easily accessible or sustainable as a large showroom.

We are considering smaller displays that show how your equipment and new technology works together. This is because people have much more choice in today's world about a whole range of equipment.

If you would like regular updates about our changes please register on: <https://www.surveymonkey.com/s/brooklynrelocation> or call Reception on 9362 6111
